2021 SSP Bridge Shutdown Schedule

SSP Railway Customers,

Last year, SSP worked with WSDOT and their selected contractor to find optimal windows for bridge replacements that WSDOT is funding through a grant. The 2020 schedule was to replace ten bridges. Unfortunately, the contractor was unable to finish two of these bridges, which reside on either side of Rosalia, WA.

To complete these two bridges, SSP Railway will be shutting down the network South of Plaza, WA for the entire month of July. The map to the right has the affected area highlighted in yellow. If you have special requirements that revolve around this shutdown, please contact me.

The employees of SSP thank you for your business and trusting relationship.

Regards,

Frank Forlini
