

Notification Number: 202201

Area: Safety

Release Date: February 11, 2022

Re: Celebration of Safety: The Ultimate Goal

The rail industry continues to be one of the leading industries in terms of safety. The Association of American Railroads (AAR) states: "The rail industry has lower employee injury rates than most other sectors, including trucking, airlines, manufacturing and construction." They also go on to say: "Railroads recognize their safety mission doesn't end until they achieve the ultimate goal: an accident-free future."

SSP Railway would like to share with our coveted stakeholders that in 2019, 2020, and 2021 we had ZERO INCIDENTS and ZERO INJURIES. We achieved this through our *On-Track Safety Program*, which combines elements of effective hiring, leadership, training, process, and collaboration with all stakeholders.

Although this safety milestone, and the others we have had in the past, are fantastic achievements, SSP and our stakeholders must remain vigilant and look to the future. The "Ultimate Goal" will continue to be a push to an accident-free future, through a daily dedication to safety.

For more information regarding:

- The safety record of the rail industry, please visit [AAR's website](#)
- Safety programs SSP has in place, contact customerservice@ssprw.com
- Integrating your safety programs more seamlessly with SSP, contact customerservice@ssprw.com

All copies of all SSP Customer Notifications are available on our [website](#).

WE'RE ON TRACK TO SAFETY.

ZERO INCIDENTS, ZERO INJURIES

in 2019, 2020 and 2021.
