Re: Update to FT SSP 001

Effective August 15, 2022, SSP has updated Freight Tariff SSP 8001-C to SSP 8001-D. Fuel costs continue to affect everyone's business, and SSP is no exception. We have done everything that we can operationally, to reduce fuel usage and increase efficiency within our operations. As a switch carrier, we have no ability to institute a fuel surcharge, so adjustments to our tariffs are needed to recover additional fuel costs. Please see the new posted tariffs in the chart below.
